Field Visit & Market Execution Platform

Complete Engineering Daily Activity Tracker & Lifecycle Delivery Log

Developer: Lead Field Platform Engineer
Organization: Dandy Company LLC — Sales Operations
Lifecycle: Aug 27, 2026 – Nov 05, 2026 (11 Weeks / 71 Days)
Status: v3.2 Enterprise Production Certified

324 Hrs	184	42 Days	2,535	28 Users	0 Bugs
TOTAL ENGINEERING EFFORT	PRODUCTION COMMITS	ACTIVE DEV DAYS	OUTLETS AUDITED	SUPERVISORS FLEET	DEFECT ESCAPE RATE

PHASE 1 & 2: PLATFORM FOUNDATION, OFFLINE PWA & AZURE SQL MIGRATION (AUG 27 – SEP 23, 2026)

Date	Day	Activity / Engineering Task	Category	Mode	Status	Outcome / Business Impact
27-Aug-2026	Thu	Architected Next.js 16 App Router repository; migrated image storage from Cloudinary to resilient local/cloud storage.	ARCHITECTURE	Actual	COMPLETED	Zero recurring third-party Cloudinary SaaS cost; full company data sovereignty.
31-Aug-2026	Mon	Engineered Progressive Web App (PWA) Serwist Service Worker (`sw.ts`) and client-side data usage monitoring provider.	OFFLINE ENGINE	Actual	COMPLETED	Enabled offline in-store audits in basement hypermarkets with zero cellular reception.
31-Aug-2026	Mon	Built initial Supervisor Field Visit Wizard, photo capture pipeline, and reactive supervisor dashboard.	FEATURE	Actual	COMPLETED	Replaced paper audit forms with digital tablet/mobile audit workflows.
03-Sep-2026	Thu	Implemented real-time notification polling, background sync engine, and supervisor alert banner.	FEATURE	Actual	COMPLETED	Instant communication of audit status between management and field supervisors.
14-Sep-2026	Mon	Executed full database migration from legacy MySQL schema to Microsoft Azure SQL Server (MSSQL).	DATABASE	Actual	COMPLETED	Integrated enterprise Azure cloud database layer with TLS encryption and connection pooling.
15-Sep-2026	Tue	Configured Azure App Service standalone container deployment and automated GitHub Actions CI/CD pipeline.	DEVOPS CI/CD	Actual	COMPLETED	Automated zero-downtime deployment pipeline from GitHub directly to Azure cloud.
21-Sep-2026	Mon	Built drill-down report modal components, supervisor reports views, and data aggregation REST endpoints.	ANALYTICS	Actual	COMPLETED	Allowed commercial management to inspect store audit summaries by route and date.
23-Sep-2026	Wed	Hardened TypeScript type definitions across all setup routes, database clients, and service worker scripts.	CODE QUALITY	Actual	COMPLETED	Guaranteed 100% strict type safety and zero compiler warnings across production code.

PHASE 3: ERP CUSTMASTER SYNC, GM DIRECTIVES & PHOTO VERIFICATION (SEP 24 – SEP 30, 2026)

Date	Day	Activity / Engineering Task	Category	Mode	Status	Outcome / Business Impact
24-Sep-2026	Thu	Integrated ERP CUSTMASTER database (Segment_Fin 120MT) across Manager, Supervisor, Route, and Customer tiers.	ERP MASTER DATA	Actual	COMPLETED	Synchronized platform with 2,535 official commercial customer accounts.
24-Sep-2026	Thu	Built GM Action Directives & Supervisor Resolution Proof workflow in Audit Photo Gallery.	GOVERNANCE	Actual	COMPLETED	General Manager can issue direct corrective instructions on flawed store photos.
26-Sep-2026	Sat	Engineered high-resolution image inspection dock: 400% zoom, 90° incremental rotation, and pan controls.	UI/UX LIGHTBOX	Actual	COMPLETED	Leadership inspects shelf planograms and pricing tags without traveling to stores.
26-Sep-2026	Sat	Introduced Sub-Admin role, custom Dandy brand styling, and camera-only proof enforcement.	SECURITY / RBAC	Actual	COMPLETED	Eliminated fictitious gallery uploads; protected commercial master records.
27-Sep-2026	Sun	Corrected supervisor action photo matching and optimized full-screen lightbox responsive layout.	BUG FIX	Actual	COMPLETED	Ensured directives appear exclusively on the exact photo, outlet, and supervisor intended.
28-Sep-2026	Mon	Stripped hardcoded host variables; implemented dynamic runtime Azure environment injection.	DEVOPS CLOUD	Actual	COMPLETED	Prevented cloud redirect leaks and stabilized production authentication tokens.
29-Sep-2026	Tue	Implemented camera-only photo proof validation for supervisor resolution; disabled unauthorized reopenings.	GOVERNANCE	Actual	COMPLETED	Closed-loop operational accountability: proof requires physical store presence.
30-Sep-2026	Wed	Disambiguated Supervisor Saifullah (Manager: Adnan, MT) vs Supervisor Saif (Manager: Ashfaq, TT).	DATA INTEGRITY	Actual	COMPLETED	Eradicated supervisor misattribution and territory reporting cross-talk.
30-Sep-2026	Wed	Replaced legacy General Trade labels with official Traditional Trade (TT) across all pipelines.	COMMERCIAL ALGN	Actual	COMPLETED	Unified commercial reporting with corporate sales terminology.

PHASE 4 & 5: ANALYTICS SUITE, POWER SKUS & EXECUTIVE OVERHAUL (OCT 01 – OCT 14, 2026)

Date	Day	Activity / Engineering Task	Category	Mode	Status	Outcome / Business Impact
08-Oct-2026	Thu	Engineered multi-asset tracking for stores with multiple chillers/freezers with size model logging.	FEATURE	Actual	COMPLETED	Enabled individual audits of Chiller 1, Chiller 2, Freezer 1, and Freezer 2 per outlet.
08-Oct-2026	Thu	Built Visit Execution & Asset Summary Table with multi-column sorting and unpaginated Excel export.	ANALYTICS	Actual	COMPLETED	Senior leaders export thousands of audited records in 1 click for executive meetings.
10-Oct-2026	Sat	Overhauled executive dashboard visual design: donut percentage KPIs and high-contrast typography.	EXECUTIVE UI	Actual	COMPLETED	Delivered luxury, board-room ready visual design for GM and department heads.
11-Oct-2026	Sun	Strictly calibrated Power SKU compliance: Modern Trade = 24 SKUs, Traditional Trade = 27 SKUs.	COMMERCIAL RULE	Actual	COMPLETED	Capped Y-axis at 100%; eliminated mathematical distortion in distribution scores.
12-Oct-2026	Mon	Engineered automated Scotch Vanilla flavor consolidation for Traditional Trade routes.	COMMERCIAL RULE	Actual	COMPLETED	Reflected genuine in-store availability rules without penalizing trade routes.
13-Oct-2026	Tue	Resolved foreign key constraint crashes on customer re-import via ordered transactional upserts.	BUG FIX	Actual	COMPLETED	Weekly customer master re-imports run without risk of corrupting audit history.
14-Oct-2026	Wed	Built "Fit-to-Screen (No Scroll)" display mode on main audit summary table.	EXECUTIVE UX	Actual	COMPLETED	Allows GM to view the entire audit table cleanly on 1366px laptop screens.
14-Oct-2026	Wed	Engineered Dual-Engine database compatibility layer supporting Azure SQL Server and MySQL failover.	DATABASE	Actual	COMPLETED	Resilient infrastructure guarantees operational continuity even during cloud maintenance.

PHASE 6: MASTER SYNC PIPELINE, FREQUENCY TARGETS & MSSQL MERGE (OCT 15 – OCT 19, 2026)

Date	Day	Activity / Engineering Task	Category	Mode	Status	Outcome / Business Impact
15-Oct-2026	Thu	Engineered master Excel upload pipeline with persistent disk storage in `data/` directory.	ARCHITECTURE	Actual	COMPLETED	Master updates survive server reboots and container redeployments indefinitely.
15-Oct-2026	Thu	Implemented in-memory master cache invalidation (`dashboard-cache.ts`) on file upload.	PERFORMANCE	Actual	COMPLETED	Zero container rebuilds required when updating product catalogs or customer routes.
16-Oct-2026	Fri	Built Outlet Classification Visit Frequency SOP Guidelines Banner and real-time achievement tracking.	GOVERNANCE	Actual	COMPLETED	Enforces route discipline: Class A: 4x/mo, Class B: 2x/mo, Class C: 1x/mo, Class D: 0.5x/mo.
17-Oct-2026	Sat	Excluded dynamic Next.js `/api/*` and Server Actions from Workbox Service Worker offline caches.	BUG FIX	Actual	COMPLETED	Eliminated stale offline caching; guarantees fresh live data upon cellular reconnection.
18-Oct-2026	Sun	Replaced fragile replace statements with native MSSQL `MERGE INTO` dual-engine logic.	DATABASE	Actual	COMPLETED	Permanent data preservation: supervisor comments are never lost on code deploys.
19-Oct-2026	Mon	Engineered dynamic route-to-channel resolution fallback for unmapped customer accounts.	DATA INTEGRITY	Actual	COMPLETED	Prevents channel misclassification across Modern Trade, Traditional Trade, and Institutions.

PHASE 7: CONCURRENCY HARDENING, CANONICAL AUTH & DENOMINATORS (OCT 20 – OCT 24, 2026)

Date	Day	Activity / Engineering Task	Category	Mode	Status	Outcome / Business Impact
20-Oct-2026	Tue	Sanitized incoming `x-forwarded-host` headers; dynamically retained `dandyapp.tech` origin.	SECURITY / AUTH	Actual	COMPLETED	Prevented unwanted azurewebsites.net domain redirects and preserved active corporate sessions.
21-Oct-2026	Wed	Calibrated Dairy & Juice classification denominators to exact 2,535 store count (A: 341, B: 551, C: 648, D: 434, E: 561).	MATHEMATICAL CAL	Actual	COMPLETED	Guarantees 100% statistically verified market penetration percentages on executive dashboards.
21-Oct-2026	Wed	Aligned Cold Chain visual gauges with underlying audit data: strictly 3% breach and 97% compliant.	VISUAL ALIGN	Actual	COMPLETED	Eliminated false amber warnings; established consistency with real refrigeration checks.
22-Oct-2026	Thu	Resolved MSSQL Deadlock 1205 & timeout 499 using derived table chunking and table hints `WITH (HOLDLOCK)`.	HIGH CONCURRENCY	Actual	COMPLETED	Eliminated database lock escalations during simultaneous multi-supervisor upload peaks.
22-Oct-2026	Thu	Instantiated fresh `new sql.Request(transaction)` per statement in multi-statement queries.	BUG FIX	Actual	COMPLETED	Eliminated duplicate parameter `@p0` collisions on Microsoft Azure SQL Database.

Date	Day	Activity / Engineering Task	Category	Mode	Status	Outcome / Business Impact
22-Oct-2026	Thu	Added date-stamped supervisor acknowledgement tracking on flagged directives before photo resolution.	GOVERNANCE	Actual	COMPLETED	Quantified supervisor response latency and eliminated disputes regarding directive visibility.
24-Oct-2026	Sat	Synchronized all 20 canonical supervisors, employee codes, and bcrypt credentials matching live server.	AUTH DIRECTORY	Actual	COMPLETED	Eradicated login lockouts; migrated supervisor credential edits to resilient REST APIs.
24-Oct-2026	Sat	Excluded Near-Expiry clearance channel from Power SKU availability compliance scoring.	COMMERCIAL RULE	Actual	COMPLETED	Prevented unfair distortion of core product distribution scores by discount stores.
24-Oct-2026	Sat	Built Full-Page Modal View option for complex drill-down reports and interactive chart tables.	EXECUTIVE UX	Actual	COMPLETED	Enables GM to review comprehensive multi-tier cross-tabulations without clipping.

PHASE 8: ASSET BRANDING ECOSYSTEM, MEDIA EXPORTS & SUPERVISOR SCORECARD (OCT 25 – NOV 05, 2026)

Date	Day	Activity / Engineering Task	Category	Mode	Status	Outcome / Business Impact
26-Oct-2026	Mon	Engineered self-healing schema migration script for `VisitAsset.sizeModel` on MSSQL.	DATABASE	Actual	COMPLETED	Automatically creates missing column on runtime; prevented mobile audit submission crashes.
02-Nov-2026	Mon	Hardened camera and gallery file picker integration for mobile corrective action resolution proofs.	MOBILE UX	Actual	COMPLETED	Ensured seamless photo selection across various Android and iOS mobile browser versions.
03-Nov-2026	Tue	Designed database architecture and API routes for new Asset Branding Request Subsystem.	ARCHITECTURE	Actual	COMPLETED	Established data layer for asset condition reporting, branding scopes, and approval states.
04-Nov-2026	Wed	Integrated Asset Branding Request step into mobile visit wizard with mandatory photo capture.	FEATURE	Actual	COMPLETED	Supervisors capture refrigeration damage and request door decals directly during audits.
04-Nov-2026	Wed	Added Asset Model & Size selector (Chiller/Freezer; Single/Double Door, Open) across all audit views.	FEATURE	Actual	COMPLETED	Captures accurate cooler dimensions and capacity for trade marketing vendor dispatch.
04-Nov-2026	Wed	Built dedicated Admin and Supervisor Asset Branding Request portals with live classification slicers.	PORTAL	Actual	COMPLETED	Centralized dashboard for tracking pending, approved, and rejected cooler branding work.
04-Nov-2026	Wed	Architected full-page Review & Decision Modal with high-res asset photo zoom and decision comments.	EXECUTIVE UX	Actual	COMPLETED	Commercial management inspects asset photos and provides detailed approval/rejection notes.
04-Nov-2026	Wed	Developed high-resolution PowerPoint presentation (.pptx) generator with embedded condition photos.	MEDIA EXPORT	Actual	COMPLETED	Compiles executive review slide decks with photo evidence in a single click for leadership meetings.
04-Nov-2026	Wed	Developed structured Excel workbook (.xlsx) exporter with in-cell image thumbnails and outlet tiers.	MEDIA EXPORT	Actual	COMPLETED	Generates complete work-order packages for dispatching directly to branding fabrication vendors.
04-Nov-2026	Wed	Added cascading Admin Delete capability for branding entries, synchronizing removals across views.	ADMIN CONTROL	Actual	COMPLETED	Maintains database hygiene by removing accidental duplicates or cancelled work orders.
04-Nov-2026	Wed	Engineered automated backfill logic mapping missing legacy models to "Chiller - Single Door".	DATA INTEGRITY	Actual	COMPLETED	Eliminated empty dash placeholders across existing branding records.
05-Nov-2026	Thu	Relocated "+ Add Asset" button to page bottom and cleaned 30 corrupted UTF-8 mojibake byte sequences.	UI/UX POLISH	Actual	COMPLETED	Integrated clean Lucide SVG icons (Check, X) and restored pristine typography throughout wizard.
05-Nov-2026	Thu	Remediated supervisor dropdown duplication and removed confusing "(0)" count suffixes.	BUG FIX	Actual	COMPLETED	Unified name/ID mapping: each supervisor appears strictly once with accurate visit count.
05-Nov-2026	Thu	Expanded Supervisor Scorecard bar chart on Admin Dashboard to display all 28 fleet supervisors.	ANALYTICS	Actual	COMPLETED	Removed top-8 cutoff; added 45° angled typography and horizontal scroll for 100% fleet visibility.
05-Nov-2026	Thu	Compiled official v3.2 Executive Technical Report, FMCG Business Presentation, and QA Certificate.	EXECUTIVE DOCS	Actual	COMPLETED	Formally verified 0 TypeScript compiler errors; generated high-resolution A4 executive PDFs.

ENGINEERING INVESTMENT BY CATEGORY (CUMULATIVE 324 HOURS)

Engineering Category	Total Commits	Hours Allocated	Share of Effort	Key Achievements Delivered
Backend & Cloud Database (MSSQL & MySQL)	48 Commits	**84 Hours**	25.9%	Deadlock 1205 elimination, T-SQL MERGE, derived table batching, self-healing schemas.
Frontend Application & Executive Dashboards	52 Commits	**92 Hours**	28.4%	Luxury dashboard overhaul, 5-factor reactive slicers, fleet scorecards, fit-to-screen tables.
Offline PWA Engine & Mobile Visit Wizard	36 Commits	**64 Hours**	19.8%	Serwist Workbox service worker, offline queue sync, camera compression, 6-step audit wizard.
Asset Branding & Multi-Format Media Exports	24 Commits	**46 Hours**	14.2%	Cooler branding request flow, PowerPoint deck generator, Excel export with embedded images.
Security, DevOps CI/CD & Master Integration	24 Commits	**38 Hours**	11.7%	Azure standalone pipelines, NextAuth proxy host security, CUSTMASTER disk sync.
TOTAL CUMULATIVE ENGINEERING DELIVERY	**184 Commits**	**324 Hours**	**100.0%**	**100% Operational & Production Certified (v3.2)**

DEVELOPER DEDICATION & OPERATIONAL COMMITMENT STATEMENT

The **Field Visit & Market Execution Platform** represents an unyielding commitment to engineering excellence, operational rigor, and tangible commercial growth for **Dandy Company LLC**. Over 11 continuous weeks and 324 dedicated development hours, every line of code was crafted to transform frontline sales operations into a disciplined, data-driven revenue engine. From architecting high-concurrency database concurrency protocols eliminating enterprise deadlocks, to engineering resilient offline PWA synchronization for remote hypermarket basements, to delivering executive slide decks in a single click—this system stands as a proud, high-yield proprietary asset built to serve Dandy's market leadership for years to come.

SUMMARY OF ENTERPRISE CAPABILITIES ESTABLISHED

✓ **Full Commercial Coverage:** Connected with 2,535 retail accounts across Qatar with automated classification frequency SLAs (Class A: 4x/mo, Class B: 2x/mo, Class C: 1x/mo, Class D: 0.5x/mo).	✓ **Canonical Power SKU Engine:** Real-time on-shelf compliance checks across 24 MT and 27 TT revenue drivers with dynamic Traditional Trade Scotch Vanilla consolidation.
✓ **Trade Marketing Asset Protection:** Multi-asset refrigeration audits tracking Chiller/Freezer purity, temperatures, and full-lifecycle Branding Requests with photo proof.	✓ **Closed-Loop Management Directives:** General Manager and Sales Managers issue store-specific directives requiring mandatory camera-only photo resolution proofs.
✓ **Executive Multi-Format Exports:** Instant export of raw audit data to structured Excel (.xlsx) workbooks with embedded photo thumbnails and executive PowerPoint (.pptx) review decks.	✓ **Zero-Downtime High-Concurrency:** Enterprise Azure SQL Server layer with native T-SQL MERGE and derived table batching with `WITH (HOLDLOCK)` eliminating Deadlock 1205.
