DANDY COMPANY LLC

OFFICIAL OPERATIONAL ACCEPTANCE, ROLLOUT & COMPLIANCE SIGN-OFF CERTIFICATE

Document Ref: DND-FVS-SIGNOFF-2026-v3.2
Effective Date: November 05, 2026
Target System: Field Visit & Market Execution Platform (v3.2)
Authority: General Management & Commercial Directorate

COMMERCIAL POLICY & OPERATIONAL ROLLOUT MANDATE

This official document serves as the binding operational sign-off and mutual commitment agreement between **Commercial Sales Leadership (Sales Managers)** and the **Field Operations Team (Territory Supervisors)** of **Dandy Company LLC**. By signing below, each manager and supervisor confirms that they have received comprehensive platform training, have verified their territory accounts, routes, and credentials, and formally commit to executing 100% of retail store audits through the **Field Visit & Market Execution Platform (v3.2)** in strict accordance with the operational standards outlined herein.

2,535 Outlets	24 MT / 27 TT	100% Purity	24–48 Hours
COMMERCIAL STORE UNIVERSE	MANDATORY POWER SKUS	COMPANY COOLER STANDARD	GM DIRECTIVE RESOLUTION SLA

1. SUMMARY OF MANDATED FIELD AUDIT COMPLIANCE STANDARDS

Compliance Standard	Mandated In-Store Operational Procedure	Enforcement & Verification Mechanism
1. Live In-Store Verification	Every audit must be conducted physically inside the retail outlet. Supervisors must log GPS coordinates, timestamp, and live store photo.	Strictly camera-only capture; photo gallery uploads are blocked by system policy. GPS radius validation.
2. Power SKU On-Shelf Availability	Supervisors must inspect and record stock availability for canonical revenue drivers: **24 Modern Trade SKUs** and **27 Traditional Trade SKUs**.	Dynamic availability scoring on executive dashboards; immediate out-of-stock alert dispatch to van sales reps.
3. Asset Purity & Cold Chain	Verify 100% brand purity in company chillers and freezers. Zero tolerance for competitor items or warm operating temperatures.	Mandatory temperature probe recording (-18°C for Ice Cream, 0°C–8°C for Dairy); flagged breach alerts to Fleet team.
4. Asset Branding & Damage Reporting	Inspect condition of cooler decals, canopy lightbox, and exterior paint. Log branding requests with mandatory condition photos.	Dedicated Admin review portal; automatic PowerPoint (.pptx) and Excel (.xlsx) work orders generated for branding vendors.
5. GM Corrective Directives	When leadership flags a merchandising flaw, assigned supervisor must acknowledge the directive and submit camera photo proof of resolution.	Mandatory 24–48 hour resolution SLA; issues cannot be closed without verified photographic proof.
6. Tiered Visit Frequency SLAs	Execute route schedules per classification SOP: **Class A: 4 visits/month** (bi-weekly minimum), **Class B: 2 visits/month**, **Class C: 1 visit/month**, Class D: per PJP.	Automated frequency tracker banner on Admin Dashboard; alerts management to under-visited high-volume accounts.

2. SALES DIVISION MANAGERS ACCEPTANCE & ROLLOUT COMMITMENT

The undersigned Sales Managers formally accept the Field Visit Platform as the official operating standard for their respective sales divisions, guaranteeing 100% team participation and daily directive governance:

Sales Division / Channel	Sales Manager Name	Employee Code	Official Acceptance Signature	Date
